## Niagara Falls

### Description

Straddling the border between the states of New York and Ontario, the Niagara Falls connects Lake Erie and Lake Ontario together. It consists of three separate waterfalls: The American Falls, Horseshoe Falls and Bridal Veil Falls. Its largest rim belongs to the Canadian Horseshoe Falls, measuring up to 790 meters wide and 57 meters high. While some visitors head to the falls for a getaway of spiritual enrichment through its various habitats and beautiful sights, others seek adventure through boat tours or zip lining.
